Subject: OSHA Steering Committee
Attachments: Alliance Presentation.ppt; wcfsa.pdf

Hello Group,

Thanks to those of who were able to attend the first OSHA Steering Committee meeting which was held at TASC on April 29th. We had a great meeting and below are some notes I took along with 2 attachments. The first attachment is Joan's power point presentation which several of you requested. The second attachment is a logo and mission statement Ernie Harben came up with to be discussed at the next meeting.

The next meeting will be held on May 23rd, 11am - 1pm, (Greg is bring pizza) at Kearney Construction, 5115 Joanne Kearney Blvd., Tampa, FL 33619. Their bldg. is new and not yet on mapquest so I will send directions under a separate e-mail.

Notes from April 29th meeting:

Joan Spencer gave out copies of the OSHA Alliance Agreement between Tampa Area Safety Council (TASC) and OSHA. She also explained the training areas the steering committee should focus on and presented a power point presentation regarding the TASC Alliance.

The group discussed several names for the alliance such as: West Central Florida Alliance for Safety, Alliance West Central Florida Safety, Safety Alliance West Central Florida and the favorite seemed to be **West Coast Florida Safety Alliance (WCFSA)**

Ideas discussed for the mission statement were: To reduce injuries & fines for non-compliance; to reduce insurance costs & expenses; to reduce injuries and fatalities through training and education to promote a safe & healthy work environment.

Hope to see everyone at the next meeting,

Patty
