

WEST CENTRAL FLORIDA SAFETY ALLIANCE MEETING NOTES

September 24, 2010, 11:00 AM – 1:00 PM
Lanier Upshaw, Lakeland, FL 33810

ATTENDEES:

Luke Vaughn and Jodie Ciccarello (Co-Directors), John Wells (by conference call), Joan Spenser, Mark Ligon, Jim Ulseth, Ernie Harben (“Note Taker”)

BUSINESS MEETING:

1. Luke and Jodie facilitated our business meeting
2. Business Cards – Joan Spenser
 - a. Joan got one recommendation for a change and she’ll implement them and order/make the cards.
 - b. Hopefully the cards will be ready in time for the October 19th SPT Safety Expo.
3. Updates to the WCFSA Web Site
 - a. Can we modify the web site so members can add links to new rules or other recent information?
 - i. We can if we go through our web hosting service but our alliance agreed all no additions would be used without pre-approval.
 - ii. We can link to “Linked-In” and anyone can post there. MARK and ERNIE will set up the link on our web page.
 - b. Do we know how many “hits” we get to on our WCFSA.org site? ERNIE will ask the web host to give us a report.
4. Meeting at Hillsborough Community College
 - a. The members would like to use that site with a guest speaker
 - b. Joan will see if there are topics she has to present and get back to the Alliance (probably a general overview of the new OSHA Crane Standard).
 - c. Members suggested looking for locations that might do tours. Those who find such a site will submit their suggestions to the Alliance.
5. SPI’s October Safety Expo October 19th
 - a. 500 registered attendees
 - b. WCFSA will have a booth (#101)
 - c. ERNIE can make a banner, tri-folds/handouts and projector
 - d. Members can have examples of portions of their safety programs for handout.
 - e. Saddle Creek will purchase a couple of WCFSA shirts for give away

- f. Jodie will give Ernie a badge so he can come in and set up the booth on the 18th. All the other badges will be at the registration table.
- g. Handouts for next meeting (November) with Joan doing a Regulatory Update at Hillsborough Community College

OPEN SAFETY DISCUSSION:

- 6. Changes to OSHA's Crane Standards
 - a. Our last presentation at Lanier Upshaw (August) was about OH cranes
 - b. Most of the new standard is on mobile cranes the members present suggested a presentation about the mobile crane portion of the standard
- 7. When is a business liable/responsible for the safety or safe performance of an outside service or contractor?
- 8. 2,000 volt main constructed at an outside site. Are there standards for the temporary structure built on site to protect the main? John Wells recommended insuring there is access for the Fire Department and meter reader. Make sure there is a good multi-contractor lockout/tag out program.

NEXT MEETING: October 19th at SPI Expo, November 19th at HCC, December 17th (a tour TBD)
